

Bonovo participated in the first session of the Great Wall Orthopedic Forum, the 14th Beijing Orthopedic Association (BOA) and the first Beijing - Shanghai Orthopedic Summit meeting

On August 5, 2017, Bonovo in Beijing International Convention Center participated in the first session of the Great Wall Orthopedic Forum and the 14th Beijing Orthopedic Association as well as the first Beijing-Shanghai Orthopedic Summit meeting.

The meeting schedule was compact and full. The authority of several medical circles came to lectures. Bonovo mainly exhibited domestic products, including BO-MIS spine minimally invasive pedicle screw system, O-FUSE lumbar lateral oblique interbody fusion device and T-FUSE lumbar transforaminal intervertebral approach fusion device, which received surgeons and industry's great concern and favor. Many attendees and our staff carried out in-depth product exchanges; Bonovo's products have increased praise.

On 6 August, the meeting was successfully concluded.
