

# Bonovo participated in the Chinese Medical Association of neurosurgery branch of the 16th academic conference

On August 11, 2017, Bonovo was invited to participate in 2017 Chinese Neurosurgery Conference in Guiyang International Convention Center

Bonovo exhibited the RF electrodes from Elliquence, bi-polar radio frequency system. Domestic PCP cervical posterior laminoplasty system, C-LINK cervical posterior fixation system and occipital bone plate were also exhibited. Bonovo's CEO, Mr. Song Yong with the whole elliquence electrode team was at the meeting.

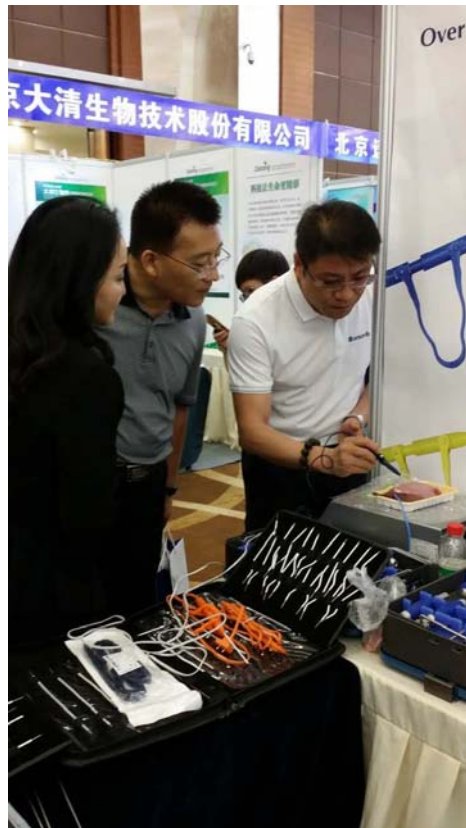

Participants and Bonovo's staff in the field of neurosurgery conducted in-depth exchanges, and the Bonovo team presented the surgical electrode solutions in the field of neurosurgery.
